## OBJECTIVE

A seasoned professional with years of experience in Analyst Troubleshooting with years of experience in Active Directory, In Network Configuration Using Mikrotik Pfsense and Cisco Router seeking a challenging role where I can leverage my analytical skills and technical proficiency to contribute effectively towards achieving organizational objectives.

## PROFESSIONAL EXPERIENCE

### IT END USER SUPPORT – ALORICA MJ PLAZA

MAR 2022 – SEP 2023

- Also known as technical support engineers, IT support provide organizations with information technology support to optimize operational efficiency.
- Collaborate with cross-functional teams to define, design, and ship new features, proactively troubleshoot and optimize code for enhanced performance, and continually research and implement the latest technologies to keep applications at the forefront of usability and innovation.
- Provide IT support to BPO employees by troubleshooting hardware, software, network, and system issues.
- Respond promptly to support tickets, ensuring that issues are resolved efficiently.
- Offer remote and on-site support for software and hardware-related problems.
- Diagnose and resolve network connectivity issues, printer problems, and peripheral device malfunctions.

### IT TECHNICIAN – MANILA, QUEZON CITY

Freelance, June 2020 – June 2022

- Diagnose and repair mobile devices, specializing in iPhones and iOS (screen replacements, battery swaps, water damage).
- Perform software troubleshooting, iOS updates, factory resets, and device optimization.
- Handle customer inquiries and resolve performance, connectivity, and software issues.
- Conduct testing to ensure functionality of repaired devices and maintain accurate repair logs.
- Manage iOS activations, data transfers, Apple ID, iCloud, and device syncing issues.
- Diagnose and repair desktops, laptops, and tablets; install/update OS (Windows, macOS), and optimize system performance.
- Perform hardware repairs (screen, hard drive, memory) and assist with virus removal and data recovery.
- Provide excellent customer service, offering technical advice and timely updates on repairs.
- Maintain inventory of tools and parts, ensuring timely availability and proper storage.

### IT SPECIALIST – LOCAL AND INTERNATIONAL (FREELANCE)

Freelance, 2018 – Present

- Serve as the primary point of contact for troubleshooting issues related to server-client networks, including diagnosing and resolving hardware, software, and network malfunctions.
- Manage and maintain optimal operation of all network systems, including LAN/WAN, VPN, and connectivity protocols; ensure the integrity of high availability network infrastructure to provide maximum performance for users.
- Conduct regular system installations and configurations, monitor network performance, and execute testing routines to ensure that networks are running without interruption.
